

Pallet Level Manifesting/ Pallet Weight Guidance

IT development work within our TMS systems has been completed in readiness for potential changes to pallet level manifesting.

So far, no legislation changes have been made but a guidance paper is due in 2021.

We were made aware of potential developments on this topic by the APN (Association of Pallet Networks) & RHA (Road Haulage Association).

This article was published in Motor Transport (December 2020):

We understand the HSE are also looking at maximum pallet weights as part of this process.
